ICAS Competition 2022

Dear Parent/Carer,

The annual ICAS academic competition is being held again this year by UNSW. This is an annual event designed to recognise academic excellence whereby students are assessed on their ability to apply classroom learning to new contexts using higher-order thinking and problem-solving skills.

It is designed to recognise and reward academic excellence with assessments based on the curricula for the year. Students are asked to demonstrate a deeper, integrated, and thorough level of learning.

The benefits of the ICAS competition is for students to provide an objective ranking in their performance, encourage students to attain greater academic success, requires students to think beyond the classroom and recognise student success through medals and certificates.

ICAS Assessments give students an opportunity to have their achievements recognised. All participating students will receive an ICAS certificate.
